REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

As per independent claims 3 and 19, the amendment filed 2/5/2004 places the application in condition for allowance because the independent claims have been amended to incorporate the subject matter that was indicated as allowable in the prior Office Action (9/12/2003). Specifically, the prior art does not teach or reasonably suggest in combination the present invention including that the computer assigns the sensed signal to the movable element of the working machine. In the Chow reference, the sensed signal is associated by default with the movable element, however, there is no direct *assignment* of the incoming data to that particular movable element within the scope of the claimed limitation.

Claims 4-12 and 14-18 serve to further define the invention of claim 3 over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric M Gibson whose telephone number is (703) 306-4545. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, William Cuchlinski can be reached on (703) 308-3873. The fax phone
